

4/10/12

I Catherine Clanton request for this matter to be quashed.

I am a single mother, with four children, my children use my computer, as a source of entertainment.

Their friends come over with their computers. I do not allow my children to down load. I do work full time, but keep a close watch on what they do or see. So I assure you, there must be some confusion.

Please know that this matter has been talked about, and understood.

I live in Chattanooga TN, 316 Vista Dr, 37411

Sincerely

Catherine Clanton
